## Project #4

**Directions:** Create a step-by-step tutorial webpage. Do not simply copy a step-by-step from an existing website. Some suggested topics include: how to access a server, insert an anchor, resize an image in Photoshop, bake chocolate chip cookies, create a song in Garageband, or do a competitive flip turn in swimming.

Your page must have the following:

1. A minimum of 6 steps
2. A minimum of 6 images
3. A minimum of 6 well written explanations
4. An anchor to each step and back to the top from each step
5. A banner (header)
6. Page Information: title, your name (email link), and last modified (auto-updating date)
7. Cite your sources with links
