

Name: _____

Color Activity

Unit #1 – Internet Fundamentals

Directions: Download "colorActivity.zip" from the course website and open "color_bar.html" in Dreamweaver. Change the background color of the cells in Row 2 to match the cell above it in Row 1. Record the Hexadecimal number of the color in the cell below it in Row 3. Print in color.

Extra Credit: Use the file called "ec_color_bar.html" instead.

Color Activity

Name: _____

R		G		B	
#000000	#000000	#000000	#000000	#000000	#000000

Enter Name Here

Row 1

Row 2

Row 3

Print in color when finished.

Background Color of a Table Cell

Place your cursor in the cell. Type the hexadecimal color here.

The screenshot shows the Dreamweaver interface. The 'Cell' properties panel is visible, with the 'Bg' (Background) field highlighted by a red box. A red line points from the instruction 'Place your cursor in the cell. Type the hexadecimal color here.' to this field. Other fields in the panel include 'Format', 'Class', 'ID', 'Link', 'Title', and 'Target'. The 'Page Properties...' button is also visible.
