

# CSS Project #2 – More CSS and Div Layouts

Unit #3 - CSS

WEB MEDIA  
TEC 171/172

Name: \_\_\_\_\_

**Directions:** You will be creating a web page layout using divs and css instead of tables.

1. Open a new document in Dreamweaver.
2. Save the document as cssProject2.html.
3. You can choose which layout from the examples shown on the next three pages or you may choose you own, but you must get it approved first.

## Beginner Example

# CSS Project #2 – More CSS and Div Layouts

Unit #3 - CSS
