

Name: _____

HTML Project #1

Unit #2 - HTML

Directions: Create the following html page using an HTML editor. Enter your name and your class schedule instead of mine. Title the page "HTML Project #1" and save is as "html_project1.html".

The diagram shows an HTML page layout with several callout boxes pointing to specific elements:

- Heading 1:** Points to the text "Ms. Smith" at the top of the page.
- Horizontal Rule:** Points to the horizontal line below the name.
- Italic Paragraph:** Points to the text "My Class Schedule:".
- Line Items in an Ordered List:** Points to the numbered list of class activities.
- Horizontal Rule:** Points to the horizontal line below the class schedule.
- Bold Paragraph:** Points to the text "I learned how to use the following HTML tags:".
- Line Items in an Unordered List:** Points to the bulleted list of HTML tags.
- Horizontal Rule:** Points to the horizontal line below the HTML tags list.
- Horizontal Rule:** Points to the horizontal line at the bottom of the page.
- Line Break:** Points to the text "Created 8-29-11 by Ms. Smith" on the bottom line.
