

MONSTER ARCHITECTURE

666 GET SOME RD. VERNON HILLS, 60061

STATEMENT OF PROBLEM

This design will be environmental friendly and about 30,000 sq. feet of indoor paintball. Com Ed electric will power it and Trane and Nicor will also be helping out to run the heating and water supplies. The exterior will be constructed of concrete and stone. There will be a flat roof where plants and other environmental things such as solar panels. The building sits on 100,000 sq. feet of property in Arlington heights. The property will have a large lot and fancy landscaping to also help the environment. The process is estimated at one million dollars and will be completed by April,20 2010.
